Joelle,

As per our phone conversation this morning attached are 2000 and 2001 annual reports. I appreciate the help you and Mr. Hedburg gave me in understanding and compliance with this report. I am putting it on the calendar for year end to watch for so this does not happen again. I also talked with Crown and confirmed they have reported those production numbers on their annual reports. You are correct after looking at the original permit mixing, processing, and storing does occur on this site which would indicate mine related activity. I noted the extraction amounts on Sec. 31 which is Crown's lease. I hope this will meet with your satisfaction and apologize for the delay. I was under the false impression it had been taken care of verbally and no extraction on our lease would be inactive status. Thank you again for your help.

Sincerely yours,

Tammy Ferguson
